For more than a century, Children’s Colorado has defined and delivered pediatric healthcare excellence.

Consistently ranked one of the top pediatric hospitals in the nation, Children’s Colorado sees more, treats more and heals more kids than any other hospital in our seven-state region.

Children’s Colorado continues to be innovative in its family-centered approach and can offer patients expert treatment in a unique, kid-friendly environment.

We are here
Access to quality care is easy with Children’s Colorado in the community. Offering urgent, emergency and specialty care locations throughout Metro Denver and southern Colorado, including the Anschutz Medical Campus, Children’s Colorado provides a full spectrum of pediatric specialties to children who need care.

Healthy childhoods are our goal
Children’s Colorado believes every child should have the opportunity for a healthy childhood. Our caregivers are collaborating on cutting-edge treatments, leading therapies and innovative techniques to ensure the healthiest possible outcomes for kids.

Your gift helps today and tomorrow!
Transform the future of pediatric healthcare by supporting Children’s Hospital Colorado. For more information, visit childrenscoloradofoundation.org
Family-centered care

Children’s Colorado is proud to provide a healing environment as well as programs that comfort and encourage patients, parents and siblings. Private sleep rooms, park-like settings, rotating art installations, counseling services, a chapel and quiet spaces on every floor help support families, who Children’s Colorado counts as partners in care.

Research

Located on the Anschutz Medical Campus, Children's Colorado is part of one of the largest healthcare research complexes in the world. We are committed to discovering new ways to improve treatments, enhance prognosis and promote faster cures through research.

Education

As a teaching hospital affiliated with the University of Colorado School of Medicine, Children’s Colorado is focused on training the next generation of caregivers. To ensure that our region’s children receive the best care, we are also committed to sharing the latest advances in care with our community service providers.

Advocacy

Children’s Health Advocacy Institute (CHAI) focuses on identifying, developing and implementing initiatives addressing child health improvement, safety and prevention, and empowerment of families. By engaging with public and community partners, CHAI works to positively impact the health and safety of all children.

Children’s Colorado by the numbers*
